- Sales & Excise Tax

The Tasting Room is a powerful retail management program. It allows users to maintain absolute control over all aspects of sales and inventory while presenting an easy and professional customer checkout.

The Point of Sale terminal includes cash drawer, credit card authorization magnetic stripe reader, and bar code scanner.

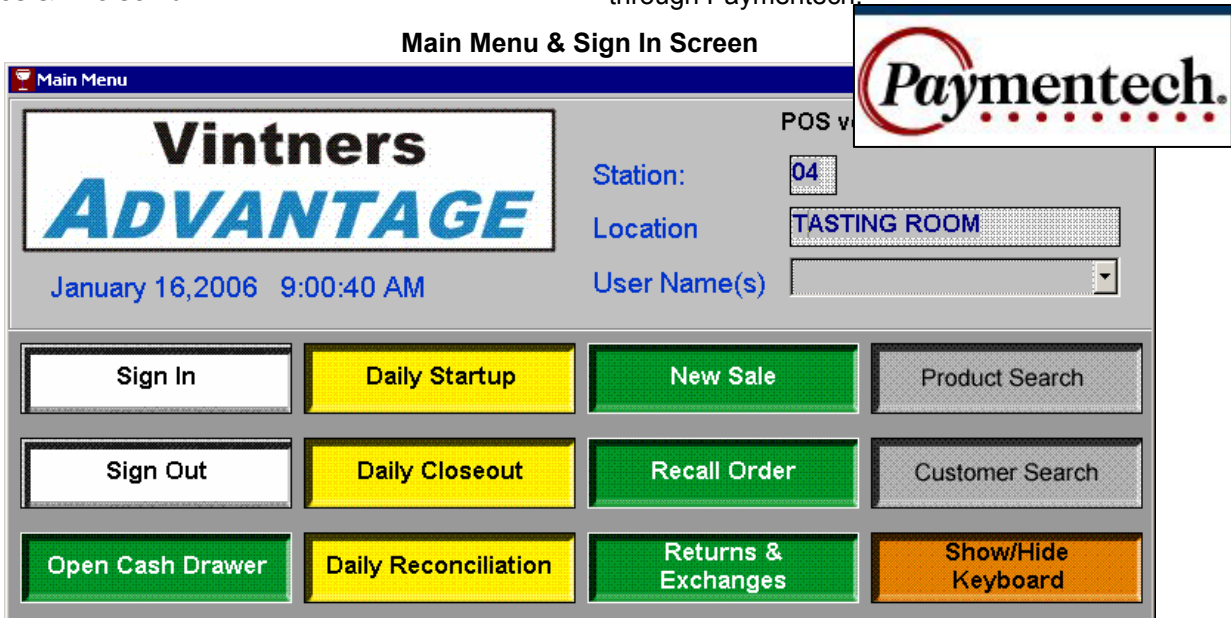

Wine Clubs are increasingly an important sales tool and the Tasting Room professionally consolidates purchase history for members, including both club and retail tasting room purchases enabling sales force to view members' year-to-date and recent purchase history.

Increasing productivity through immediate real-time posting to the Sales & Distribution module including Inventory tracking and updates to Customer and Product Sales History.

Full integration into Financial Management module with real-time posting of sales, inventory, and payment transactions into the General Ledger.

The Tasting Room module requires the Sales & Distribution system. Credit card processing is provided through Paymentech.
